

Increasing Credit Card Acquisition Through Performance Marketing for BOBCARD

Campaign duration –
10 Months

CHALLENGES & OBJECTIVE

CHALLENGES

- High initial Cost Per Conversion or Card Acquisition Cost (CAC) over 5000 INR.
- Limited growth in online acquisition channels.

OUR OBJECTIVE

- Reduce CAC and increase brand & product awareness.
- Expand and optimize online acquisition channels.

OUR **APPROACH**

Our campaign strategy utilized a multi-channel approach, custom campaigns and incorporating various advertising platforms to maximize reach and efficiency.

- **Google Ads** with both brand and non-brand keywords.
- **Performance Max** (Pmax) with customized campaigns.
- **Meta Ads** (Facebook and Instagram) targeted as per the interest and likeness of the audience.
- **Online Reputation Management** (ORM) to monitor and manage and understand brand perception,

■ Search Ads

■ Performance Max & Display

■ Meta Ads + LinkedIn

OUR **APPROACH**

We integrated the first party data to the user journey to ensure a smooth audience traffic.

We customized the campaign as per the audience set and matched it with product features and offerings

Through social listening, we monitored over 15000+ mentions and engagements to establish brand sentiment and created 10+ profiles to understand which product fits which type of audience.

We carefully chose the distribution channels to ensure that the right message is delivered to the right audience.

CAMPAIGN EXECUTION

The process

- Thoroughly understanding the products and their offerings.
- We identified the target groups that best match the product offerings.
- Utilizing Locobuzz, we monitored social channels, scanning over 15,000 engagement mediums to gauge brand sentiment and awareness.
- We created distinct audience segments, matching them with the most suitable credit cards based on demographics, interests, job profiles, and social media consumption patterns.
- Leveraging the gathered data, we crafted customized campaigns, including topical ones to tap into audience interests and trends.
- We strategically selected distribution channels to ensure the ads remained relevant to the audience.
- Finally, we continually optimized the campaigns based on our learnings.

CAMPAIGN SUSTENANCE - OPTIMIZATION

Key Optimization - Overview

- Regularly analyzed keyword performance to identify high-converting keywords.
- Added negative keywords to filter out irrelevant traffic, ensuring that ads reached the most relevant audience.
- Creative and communication revamp basis creative report to avoid creative fatigue.
- Brand campaigns to ensure more awareness and brand following.

CAMPAIGN SUSTENANCE - OPTIMIZATION

Customization to Communication and Creative

Product-Specific Campaigns:

- Created individual campaigns tailored to each card product, highlighting their unique features such as airport lounge access and reward points.
- Ensured that the ads showcased the most appealing aspects of each product to attract the right audience.

Feature-Specific Targeting:

- Targeted ads based on the key features of each card, ensuring that the audience saw the most relevant and attractive offers.
- Customized targeting helped in delivering ads to the right audience at the right time, enhancing the relevance and effectiveness of the campaigns.

CAMPAIGN SUSTENANCE - OPTIMIZATION

Google Ad Customization

- Launched dedicated campaigns for In-market and Custom segments, allowing for more precise targeting based on specific audience behaviors and interests.
- In-market segments targeted users actively searching for related products, while Custom segments were tailored to unique audience profiles identified through social listening.
